Optional Extras

Wooden Floor Kit: Comprises fully pressure impregnated tongued & grooved boards and bearers. Nails included for assembly, plus screws to fix the shed base rail to the top surface of the floor. **Foundation Kit is not required with this product option.**

Anchor Screw Fixing Kit: Fits through pre-drilled holes in the base rail. Kit supplied complete with masonry drill bit. Used to secure a shed to an existing concrete or slab base. Screws are cross slot headed to enable removal later if required.

Foundation Kit: Comprises galvanized steel channels which assemble to give a foundation area. This should later be filled with concrete after first inserting a plastic sheet below to prevent dampness rising.

Wooden Floor kit is not required with this product option.

Skylight: Translucent roof sheet available to permit daylight to the shed interior. Replaces one full width roof panel. **Fits all apex roof sheds only.**

Free Standing Shelves: Shelving kits available for the Lotus Apex Sheds.
