

Kingston lightweight aluminium carports

Multi-purpose and aesthetic designs - Maintenance free - Robust and durable structures - Easy assembly

Kingston Lean-To Carport Patio Cover Sizes 10'x14' and 10'x16'

The Kingston Aluminium Lean-To Carport Patio Cover is an exciting new system, encompassing a modern design providing ease of installation. In addition, its high structural performance ensures this system is an ideal choice for domestic, DIY and commercial applications.

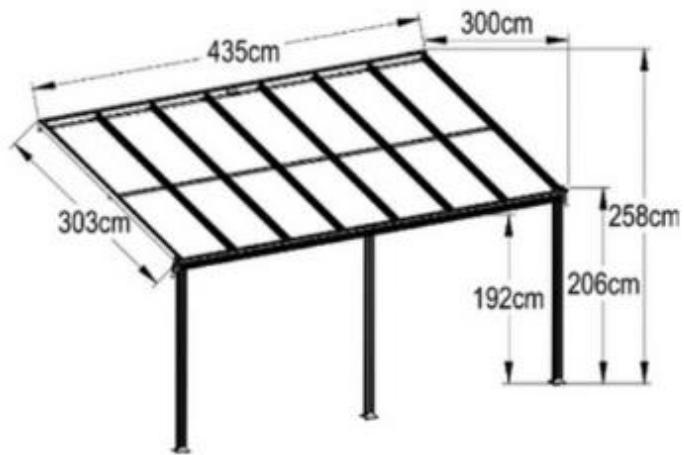

The system is manufactured in maintenance free powder coated aluminium as standard. Glazed with clear UV stabilised polycarbonate sheeting offering greater flexibility in the canopy design with enhanced strength and rigidity.

Included in the eaves beam is a cleverly designed integral box gutter utilising the support posts. Kingston Aluminium Patio covers are typically built for entertaining and providing shelter from the sun and rain over your existing patio.

TRIDENT

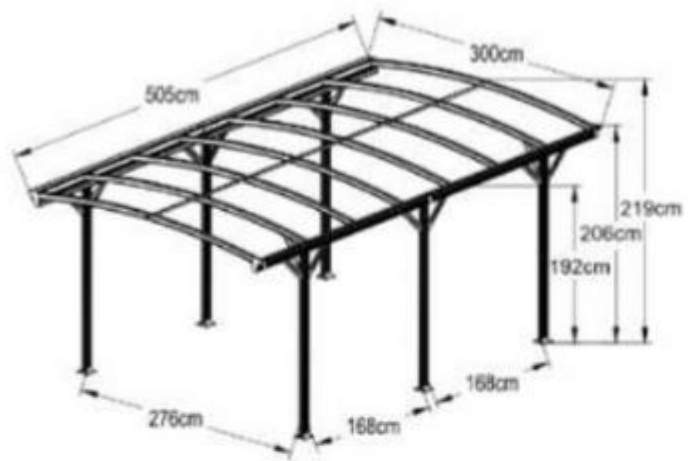

Kingston Aluminium Curved Carport Size 10'x16'

The versatile all-around structure of the Kingston Curved Carports is modern and elegant. The wide entry and overhead clearance give you plenty of room to park your vehicle, protect it from the elements or create an enjoyable sitting area.

Features include virtually unbreakable solar grey corrugated polycarbonate roof panels, offering ample shading, rust resistant, grey powder coated aluminium frame with galvanised steel connectors, gutter and gutter heads to direct rainwater and anchoring hardware. The Kingston Curved Carports are maintenance and corrosion free for many years to come.
